DETAILED ACTION

Information Disclosure Statement

1. The 122 pages of the non-patent literature document: Microwave Mobile Communications, Chapters 5 and 6, edited by William C. Jakes (1974), has not been reviewed, since the large quantity of pages without indicating the relevant portion regarding to the subject matter of invention recited in the claims make it difficult to review/examine.

Allowable Subject Matter

2. Claims 1-7 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest, alone or in a combination, among other things, at least a method for receiving and processing OFDM signals as a whole, the combination of elements and features, which includes weighting each of I/Q values for each of demodulated OFDM signals by a corresponding weighting factor of proportional to the reciprocal value of the relevant channel correction so that low received level are weighted low and high level are weighted high; adding each of the I/Q values for each of demodulated OFDM signals and dividing the added I/Q values by the sum of the weighting factors of each of the weighted VQ values as recited in the claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Pommier et al. (US 5,191,576) describes a weighting metrics of a OFDM system (FIG.7, column 9, line 60-column 10, line 15).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edith M. Chang whose telephone number is 571-272-3041. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jay K. Patel can be reached on 571-272-2988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
